## EXECUTIVE SUMMARY

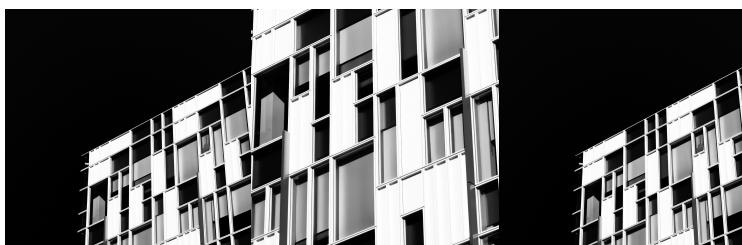

Secure, safe , resilient

## SOLUTION

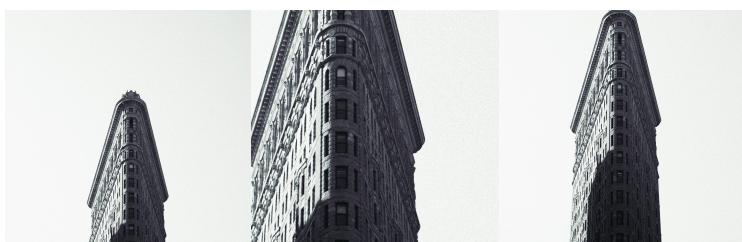

Resilient One's Tape is a distributed intelligence security engine adapted to provide first of class safety and tranquility to its users.

## Resilient One

### 1 Infrastructure

Security infrastructure as code allows users to easily write, architect, deploy and support security measures for software and hardware, facilitating layover work and providing the necessary resources to protect

### 2 Service

Monitor and command with our 'secure first' platform. A unified access to all deployed resources, anytime, anywhere.

### 3 Distribute & Orchestrate

Easy integration and distribution, allowing easy administration of assets in real-time. Deploy in seconds, orchestrate and control.

“

*I do not fear computers.  
I fear the lack of them*

”

Asimov

## 1 COMMUNICATIONS AUTONOMY

Agents cycle across an array of communication algorithms and protocols to maximize knowledge transfer and updates.

## 2 ASSETS INDEPENDENCE

Autonomy and logic are embedded to your devices to allow independence of action, logging and resiliency. Multi-platform software allows for fully orchestrated hardware and software landscapes.

## 3 DISTRIBUTED FULLY AUTONOMOUS A.I.

The platform generates models for each individual agent and distributes its logic to allow better and faster learning, data acquisition and execution across your ecosystem.

## 4 HIGH P2P BANDWIDTH SMART STORAGE

Use of our proven peer-to-peer smart network storage easily transfers and analyzes high-traffic data between assets, and reacts quicker and smarter where and when you need it.

# APPLICATIONS

## Third Party Integrations

ResilientOne's Tape extends new security measures that easily integrates and assure the integration with less secure partners and services to access and interact with the information they need.

## Data Protection

ResilientOne's Tape provides state of the art data stewardship and data custodian frameworks, protecting from data-breaches and data-loss, analyzing across platforms and systems with distributed intelligence precision.

## System complexity

ResilientOne's Tape helps organizations to orchestrate services with ease, building comprehensive network and business segmentation, adapting to the most complex application ecosystem.

“

*I am not overstating when I say that ResilientOne changed our company.*

”

Scott Getchel, Product Manager, Govzilla

# APPLICATIONS

## Compliance and Audit

ResilientOne's Tape enables the generation of reliable audit trails, security logs and process pipelines adapting to meet the most complex compliance road maps.

## Cloud Based Migration

ResilientOne's Tape provides a unified and coherent platform framework to easily coordinate and synchronize software, processes and business objectives securing your cloud migration journey with ease.

## Cyber Security

ResilientOne's Tap analytical engine allows to stay protected and ahead of threats such as malware and software vulnerabilities.

*Epyphite came to our rescue with an elegant and quick to implement solution.*

Fernando Cassina, Managing Director, Iafis System do Brasil

*Self-assembly and self-healing are hallmarks of living organisms*

- David Hu, Georgia Tech

**Epyphite** is a Singapore-based data security agency that specializes in helping businesses to build and grow their data and information needs. With presence in more than six countries across three continents, **Epyphite** is one of the fastest growing companies in the ASEAN region.

### Our Goal

To provide 'just in time' intelligence, data and quality software solutions to the aerospace sector, driving innovation, disruption and growth, pushing boundaries of deep technologies and integrating them for a common and social goal.

### CLIENTS WE HAVE WORKED WITH

“

*None of us, including me,  
ever do great things. But  
we can all do small things,  
with great love, and  
together we can do  
something wonderful.*

”

- Mother Theresa

**Juan Pablo Ramirez**  
Chief Executive Officer

**Joshua Ridley**  
Chief Technology Officer

**Katie Elizabeth Taylor**  
Chief Editor and Communications

**Eduardo Cabanias**  
Chief Security Officer

**Fernando Cassina**  
VP of Sales

**John H. Long, Jr.**  
Advisor  
Vassar University  
Cognitive Science Laboratory
